Thermal Treatment for Reclamation and Beneficial Use of Contaminated Sediments

Blake D. Beckstrom
Sr. Specialist Engineer
Process Technology and Consulting, Wood
Overview of Poster Presentation

• Problem with Contaminated Sediments
• Traditional Approach
• New Approach
• Pilot Testing--Results
• Benefits
  • Complete Destruction of Contaminants
  • Eliminate Long-term Liability
  • Create High Quality Pozzolan Material for use in Cement
  • Cogeneration of Electricity or Process Heat

• Commercial Scale
  • Cost Competitive
  • Ready for Design-Build Now
  • Endorsed by National Advisory Council for the US EPA
